

WHAT IS AUTISM?

Autism is due to gut dysfunction and related cerebral toxicity. Autism results in arrested or reversal of milestones and development. A large part of Autism is mostly reversible - in fresh cases, aged under 5 years.

Our gut-brain-healing approach is individualised and holistic, so that every child receives a new opportunity to feel and express better. Over the past 20 years, we have fine-tuned a supportive program, that is based on conventional and holistic principles, that has generated visible improvements in 4-6 weeks in more than 80% children.

We work along with your current medical expert.

OUR SERVICES

We work with children with autism and related conditions. We know how much a family has to put into caring for this children. We have simple and time-tested tips and support for every family and suffering child. We use appropriate alternative techniques to achieve this.

OUR PRACTITIONERS

Our practitioners are passionate and committed to help your children. They have mastered holistic medicine and follow the latest trends in modern research. Our chief physician is looking after children with Autism for Over 20 years in Sydney, Melbourne and Online.

OUR PHILOSOPHY

Our mission is to give families the best support so that their children can recover faster and easier. We help them so that they can connect better and develop better understanding between them. We offer natural alternatives for reversing this condition as much as possible.

TESTIMONIALS

With your medications, on the 4th day my daughter's (8 years old) behaved almost fully like a normal kid - her teacher said. We see the same here.
Thank you, AN team!
